COURSE ASSIGNMENTS AND EVALUATION:

**Project #1: Bloom’s Taxonomy/Critical Thinking**
Learning to develop effective questions is key to helping students to develop their higher level thinking skills. Using the resources provided for this assignment, students will explore Bloom’s Taxonomy and its six categories of thinking skills: remembering, understanding, applying, analyzing, evaluating, and creating.

**Project #3: Procedures**
Students will create procedures to use in the library, as well as an orientation presentation to use with their students.

**Project #4: Lesson Plan**
Students will write a lesson plan to use in the library that incorporates educational strategies and concepts learned in this class.

**Participation**
Students will engage in class discussions and activities demonstrating an understanding of required readings and assignments. In order to receive the full amount of points each week, you must participate fully in both the discussion board (when applicable) and Collaborate sessions.
