Course Description:
This course will introduce students to theories, models, and systems of information retrieval (IR). These will include the models of representation for data/information/knowledge and user needs/queries; the models and mechanisms of information relevance establishment, information filtering and personalization; and the models and measures for IR system performance evaluation.

Course Objectives:
Upon completion of this course students will

1. know the major milestones of historical development of IR systems and understand their implications to IR research and practice
2. know and be able to explain the major theories and algorithms ‘powering’ the modern search engines
3. know and be able to apply in practice the models and methodologies of IR system evaluation, be familiar with applications and limitations of current IR performance measures and other proposed performance measures
4. understand and describe Semantic Web technologies and their use in IR
5. become familiar with some of the social issues associated with the practical implementations of the IR models
6. be familiar and understand the techniques and strategies used to optimize websites for search engines

Course Materials:
There is NO required textbook for this course. All readings will be served from the course website.
COURSE ASSIGNMENTS AND EVALUATION:

**Reading:** textbook, and papers. The papers will be linked to the schedule (see below). Students are expected to read all readings for each week.

**Discussion:** of readings. Students are expected to participate in the Discussion Boards (DBs) by posting comments on the required readings for that week. The goal of the Discussion Board participations is for the student to give the instructor their immediate feedback to the assigned readings and the materials covered in class. Students need to demonstrate that they have done the assigned readings by providing thoughtful comments and critical analysis of the theories and approaches/techniques discussed in the readings. Students may be given discussion questions small exercises, or quizzes to motivate discussions, to help with better understanding of the course materials, and/or prepare for exams.

**Assignments:** Two assignments are given throughout the semester to develop a deeper and broader understanding of a particular part of the IR theory and/or the inner-working of a particular IR system in a broad sense. The assignments will be in the form of 2 topical essays (1100-1200 words) submitted through the Assignments module. The more detailed descriptions and guidelines for writing the essays are available from the Assignments module.

**Tests:** There will be two 24 hour take-home examinations – midterm and final. The instructions for the exams will be posted in the assignments module.

GRADE CALCULATION: Evaluation:

Throughout the course you can earn up to 100 points divided as follows:

1. Participation in weekly discussions, 15 points:
   - Attending the chat of Week 1 (REQUIRED); participating in the chat and discussion, posting a bio – up to 2 points
   - Participating in the chats and discussions of Weeks 2-14; completing practice exercises (if any) (13 weeks) – up to 13 points
2. Short papers 40 points (20 points each)
3. Midterm exam 20 points
4. Final exam 25 points

COPYRIGHT STATEMENT:
Some of the materials in this course are possibly copyrighted. They are intended for use only by students registered and enrolled in this course and only for instructional activities associated with, and for the duration of, the course. They may not be retained in another medium or disseminated further. They are provided in compliance with the provisions of the Technology, Education, And Copyright Harmonization (TEACH) Act (refer to the 3/7/2001 TEACH Act at www.copyright.gov/legislation/archive/).

SEXUAL HARRASSMENT POLICY:
It is the policy of the University that its employees and students neither commit nor condone sexual harassment in any form. http://registrar.fsu.edu/bulletin/grad/info/university_notices.htm

SCHOOL OF INFORMATION HARDWARE AND SOFTWARE REQUIREMENTS:
A list of all hardware and software requirements for students participating in the School of Information courses can be found at the following location: http://ischool.cci.fsu.edu/academics/online/requirements/

STUDENT ELIGIBILITY FOR AN INCOMPLETE GRADE:
Incomplete (“I”) grades will not be assigned, except in the case of exceptional unforeseen circumstances that occur within the last three weeks of the semester and your work has otherwise
been satisfactory (C average).

**University Attendance Policy:**
Excused absences include documented illness, deaths in the family and other documented crises, call to active military duty or jury duty, religious holy days, and official University activities. These absences will be accommodated in a way that does not arbitrarily penalize students who have a valid excuse. Consideration will also be given to students whose dependent children experience serious illness.

**Academic Honor Policy:**
The Florida State University Academic Honor Policy outlines the University’s expectations for the integrity of students’ academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. Students are responsible for reading the Academic Honor Policy and for living up to their pledge to “... be honest and truthful and ... [to] strive for personal and institutional integrity at Florida State University.” (Florida State University Academic Honor Policy, found at [http://fda.fsu.edu/Academics/Academic-Honor-Policy](http://fda.fsu.edu/Academics/Academic-Honor-Policy).)

**Americans With Disabilities Act:**
Students with disabilities needing academic accommodation should:
(1) register with and provide documentation to the Student Disability Resource Center; and 
(2) bring a letter to the instructor indicating the need for accommodation and what type. This should be done during the first week of class.

This syllabus and other class materials are available in alternative format upon request.

For more information about services available to FSU students with disabilities, contact the:

Student Disability Resource Center

**Free Tutoring from FSU**
On-campus tutoring and writing assistance is available for many courses at Florida State University. For more information, visit the Academic Center for Excellence (ACE) Tutoring Services’ comprehensive list of on-campus tutoring options - see [http://ace.fsu.edu/tutoring](http://ace.fsu.edu/tutoring) or contact tutor@fsu.edu. High-quality tutoring is available by appointment and on a walk-in basis.
These services are offered by tutors trained to encourage the highest level of individual academic success while upholding personal academic integrity.

**Syllabus Change Policy**

"Except for changes that substantially affect implementation of the evaluation (grading) statement, this syllabus is a guide for the course and is subject to change with advance notice."
